MULUND A NEW REALTY HOTSPOT

Mulund has emerged to become one of the hottest real estate destinations in all of Mumbai owing to its hugely affluent population. More than 1200 apartments with an average cost of ~ Rs. 2 Cr have been sold directly by builders in the last FY in Mulund*.

Mulund has direct connectivity to Thane, Navi Mumbai and has excellent road and rail connectivity to the rest of Mumbai via the Eastern Expressway and the Central Railway.

THE NEXT POWAI OR THANE?

Over the last 2 decades, Powai and Thane have transformed from premium residential locations into thriving commercial destinations.

Mulund is on a similar trajectory with over 16,000 new builder apartments over ₹1 Cr to be delivered in the next 4 years from some of the largest brands in real estate*.

*Source - Liases Fores

DID YOU KNOW?

Mulund is one of the earliest planned suburbs in Mumbai. In 1922, German architects Crown & Carter with Zaverbhai Ramji Shah, the patriarch of Marathon Group, designed a gridiron masterplan of 550 acres making it one of the best planned and greenest suburbs in the city.

THE ADDRESS OF SUCCESS

Marathon Millennium comes with a future proof location at LBS Marg in Mulund West. These adjacent to metro offices ensure your commute is never as tough as your workday. Coupled with the lush greenery of Mulund, these factors make Millennium an address to vie for.

LOCATION

LBS Marg, Mulund (W)

METRO

Opp upcoming Sonapur Metro Station on Line 4

ROAD

10 Mins from Eastern Expressway

RAIL

10 Mins from Mulund Station

CLOSE PROXIMITY

to business hubs of Powai, Thane, Navi Mumbai and BKC

FUTURE ROAD CONNECTIVITY

to Western suburbs will improve with the Goregaon Mulund Link road

THE METRO FACTOR

The upcoming metro network is set to change the landscape of commercial space in Mumbai.

INCREDIBLE LAST MILE CONNECTIVITY

One of the biggest issues with commuting to work is last mile connectivity. In a city like Mumbai getting an autorickshaw or cab from the nearest station to the workplace can be a huge hassle. At Millennium your employees will face no such issues. They can literally step out of the metro station and step into their office. Last mile connectivity? More like last few feet connectivity!

ATTRACT AND RETAIN THE BEST TALENT

The metro network will span the entire city and will enable your business to attract the best talent from all over the city. Location is a key factor for people while choosing their workplace and Millennium beats most other locations hands down due to the upcoming metro.

Commercial properties located within 500m of a station command a premium of about 16% over similar properties outside this zone.

The Journal of Real Estate Finance and Economics

Access to employees in urban areas can be key drivers of commercial property values and economic growth.

O'Sullivan, 2009

A TOWERING PRESENCE

Marathon Millennium towers over LBS Marg with a stunning glass facade, ample parking, and spacious, optimally designed office spaces.

REDUCE OPERATIONAL COSTS

The aesthetically pleasing facade is also the buildings biggest functional asset. Permeable windows allow natural light to reach deep within offices without compromising on comfort. Sophisticated glazed window panes ensure offices remain cool while saving energy on light fixtures making for an efficient workspace.

Energy Efficient Windows: Low-e Double Glazed Glass

Sewage Treatment Plant

Centralised Building Management System

Green Building

Multi-tier security

MAKE A GREAT FIRST IMPRESSION

Besides this Marathon Millennium is chock full with features and amenities to create an ecosystem that is not just sustainable and efficient but also makes an immediate impression.

Double Height Lobby

High Speed Elevators

Valet Parking

Mechanical parking system

Coffee Shop

No ugly air-condition outdoor units on the facade

WORKSPACES THAT INSPIRE

We have paid rigorous attention to every detail to bring to you office spaces that your employees will love to work in.

Millennium's floor plate is designed in a way that the spaces are flexible, modular and combinable. This means that you can have a small office space of 350 sqft. or an a large office on an entire floor of 10,000 sqft.

Offices from 350 sq.ft. onwards

Sample Office at Marathon Millennium

All the spaces feature large windows that flood the space with natural light. Our offices also have great views.

Numerous studies have proven that natural light, greenery and airy spaces boost mental health, creativity and productivity.

Office workers who worked near windows slept better, exercised more and were more productive than those in windowless offices.

Cheung & Zee, 2014

Exposure to daylight improves moods and cognitive performance.

Kent, 2009

Stunning glass facade

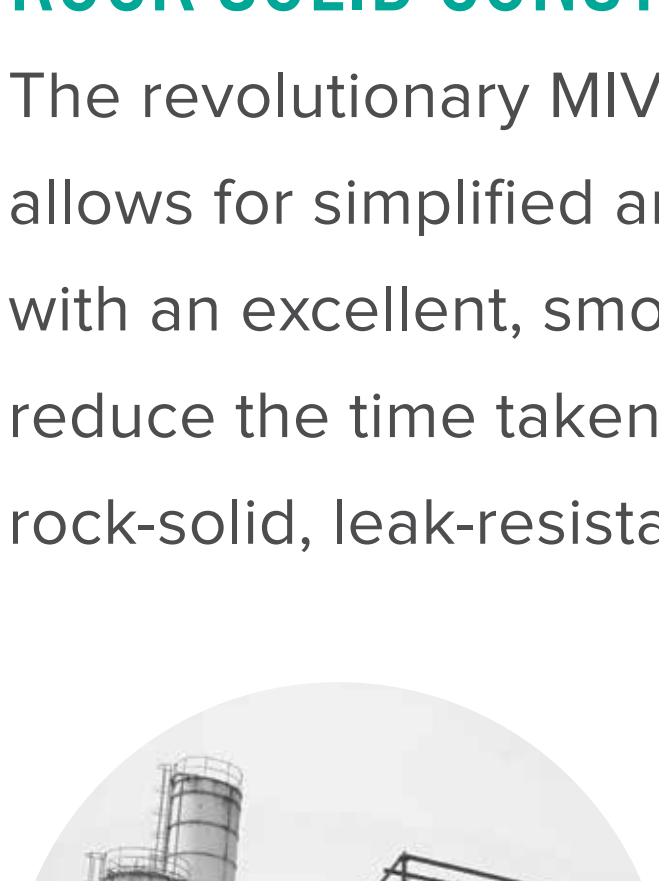

SUPERB CONSTRUCTION

Marathon projects are built using cutting edge construction technology that ensure our structures are rock solid, leak proof and built to last.

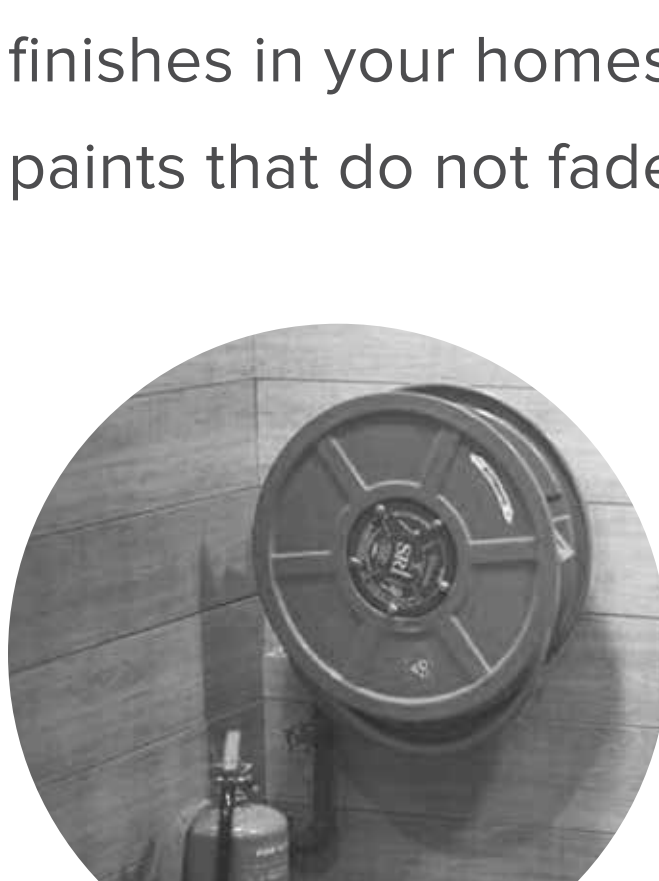

54 YEARS OF EXPERTISE

With our leadership team having decades of engineering and construction expertise, we have been pioneers of many best practices in the industry. We do not outsource our construction and our engineers retain full control over construction quality.

ROCK SOLID CONSTRUCTION

The revolutionary MIVAN formwork technology allows for simplified and faster construction activity with an excellent, smooth concrete finish. It helps to reduce the time taken for construction while creating rock-solid, leak-resistant structures.

MICRO-MANAGED QUALITY

Our engineers go right to the source of the raw material to ensure that quality is uncompromised. An on-site material testing lab ensures the highest levels of quality control. We use only premium finishes in your homes and use premium, polymer paints that do not fade and last for a long time.

SAFETY FIRST

We deploy high quality CCTV, fire fighting & electrical safety systems. We use multiple circuit breakers, low smoke hazard cables, elevator safety systems and more to ensure your safety. Our water tanks are also designed to minimise microorganism growth.

ONGOING PROJECTS

We are currently building several townships in the fastest growing neighborhoods, affordable housing projects, ultra-luxury skyscrapers, small offices and large business centers, with projects spread across the Mumbai Metropolitan Region (MMR).
